ABSTRACT

LIC agent is a Web application for all LIC agents. With the help of this application, the LIC agent can save all the information of its customers. And the LIC agent can also know how much commission he gets. In addition, each policy can get information about it. and the agent can also calculate how much the customer will benefit from which policy.

Even nowadays many LIC agents are seen using different types of materials for commission and for their clients to understand the policy. And it is a bit difficult to explain all the policy information in one paper.

All these limitations are removed by the LIC agent application. With the help of this web application, the LIC agent can save the details of his client in any place on his mobile and also find out the commission he gets himself. You will not need different materials to explain about policy. It can easily explain about each policy with the help of this LIC agent application in mobile.

ACKNOWLEDGEMENT

We feel great pleasure in submitting this project report as a part of our B.C.A. Semester 5 curriculum. A practical study plays an important role.

For the successful completion of our project, we would especially like to thank our parents for their support and unconditional help. We would also like to thank our Project Guide Khushal Rajani for their constant support and help in implementation of this project.

We are also thankful to our Principal Ma'am, Ms. Hetal G. Savla for all the facilities they provided throughout our semester and for encouraging us to take up this activity.

Lastly, we would also like to thank the faculties and staff members of

Smt. C.Z.M. Gosrani B.C.A. College, Jamnagar.
